

We believe that a dress code is desirable since the dress of pupils reflects what the school represents. We believe that there is a positive relation between a neat, appropriate appearance and a good learning environment. All students are encouraged to take pride in self and in their school work. To create the optimal setting for students, the following guidelines reflect our desire for student dress and they emphasize neatness, modesty, good grooming and good taste. We ask both parents and students to support the school in our dress code and creating a positive learning environment.

DRESS CODE ENFORCEMENT

1. Parents are requested to monitor what their children wear to school and should help their children develop pride in their appearance.
 2. Enforcement of the dress code guidelines may vary as per grade level, nature of infraction, and number of occurrences. Consequences for infractions may include, but are not limited to: written notice, phone call, change of clothing, and suspension.
 3. The faculty shall assume responsibility for enforcing this policy, under the direction and guidance of the principal. Each teacher has the authority to approach any student whose dress is considered in violation of the dress code, regardless of student grade level.
 4. The school reserves the right to make final determination on the validity of student dress; the classroom teacher and/or principal may handle special circumstances on an individual basis.

SUMMARY

In our partnership between home and school, each of us has a role in complying with our dress code. Students are asked to consider their appearance before leaving for school in the morning. Parents are asked to support the school in our attempt to promote a positive and appropriate learning environment. Teachers and staff are asked to enforce the dress code guidelines consistently and fairly. The school is asked to amend the dress code as needed to reflect fashion or styles.

When the home and school work together in our dress code, we know that school time is focused more on teaching and learning, rather than dealing with the distractions and frustrations of inappropriate dress attire.
